

AUTISM / ABA-VB INTENSIVE PROFESSIONAL TRAINING IN BARCELONA

CIEL, the Center for Research and Language Teaching, provides a unique approach to teach children with problems in language acquisition and comprehension.

Our program is based in the scientific application of applied behavior analysis (ABA). We have a proven record of promoting positive changes in behavior. Our curriculum focuses on verbal behavior (VB) to teach children vocal and functional communication.

Our executive director, Dr. Gladys Williams holds a doctoral degree from Columbia University. She has broad experience as researcher, therapist, curriculum designer, and years of experience in parent training. She consults with families and schools in the United States, Brazil, Argentina, Mexico and Spain.
